

Isuikwato | Abia | Nigeria | March 2006

- 4,992—General Consults
- 805—Eye consults
- 38—Dental consults
- 162—Gyn. Consults
- 750—Eye glasses provided
- 119—Lab procedures
- 157- Gen. & eye surgeries
- 26—Gyn. Surgeries
- 1,129—Decisions for faith & spiritual growth

For two weeks CMF (FaithCare) ministered in Abia State, Nigeria, utilizing a rustic run down hospital which had no electricity or running water. During that time there was a ban on movement to allow a census to be taken within the country. This did not prevent thousands of patients from coming in hopes of receiving free medical care. A gentleman blinded from cataracts, radiated his joy with a large smile in receiving sight once again after their removal. A young woman was experiencing significant pelvic pain and heavy bleeding due to a fibroid uterus. Under the influence of conscious sedation, she loudly prayed for and with the team as they removed her fibroids, a condition she had lived with for so long. It never ceases to amaze our outreach teams how they are able to triumph through seemingly uncontrollable obstacles. It is clear in Scripture how much God loves and cares for the poor and needy of the world.

*An integration of faith and healthcare.*
